05 · EVIDENCE RULE — 10 / 10

No number enters this document or any public material unless it has been measured and can be re-run.

ANATOMY OF A CLAIM

01	**Environment**	Where it ran: the machine, versions and settings.
02	**Input**	Exactly what went in.
03	**Command**	Exactly what was run.
04	**Raw output**	What came out, unedited.
05	**Hash of the result**	A fingerprint showing the output was not altered afterwards.

TREATED AS UNVERIFIED

Figures produced by an AI tool without a reproducible run, numbers quoted from memory or marketing copy, and benchmarks whose environment was not recorded.

GOVERNANCE

Changes to sections 01–05 need a written reason. New metrics enter only through the Evidence Rule. Still to come, from verified source only: customer, business model, architecture, roadmap, interface and brand.

REVISION V0.3

Depth added to Vision, Principles and Sovereignty Promise at the architect's request. No metrics added.
